- **CSS**
- **JavaScript**
- **Python**
- **Php**
- **SQL**

Hardware for OAS Website

- Processor: Preferably 1.0 GHz or Greater
- RAM: 512MB or Greater

Conclusion

OAS(Online Ambulance Services) can help in educating the unknown minds of people and can solve their queries regarding →

1. How to summon a Ambulance?
2. Which Ambulance to summon?
3. Help in finding nearest ambulance.
4. Educate them how to book ambulance online through OAS.

Therefore the concluding statement of this would be...

“Educating people to help themselves, which help to fill the gap between bridges of lack of knowledge”

Thank You
